```java
package com.itfactory.Produs.Electronice;

public class Electronice{

    private int Electronice;
    public Electronice (int electronice) {
          this.Electronice = electronice;
    }

    public int getElectronice() {
        return Electronice;
    }

    public void setElectronice(int electronice) {
        Electronice = electronice;
    }
}
```
